Monday Music Memo 8: 15 May 2023

After praising Maria Callas as a great soprano some weeks ago, I would like to introduce Cecilia Bartoli to you. She is my favourite coloratura soprano. Her genius as a singer will be apparent if you watch videos of her.

Bartoli's music can be heavy and thought provoking, such as her *Sacrificium*, which seeks to bring the lost voices of the castrati to life.

Enjoy!
